Friday 23rd May, 2008

9:30-9:45	Opening remarks: Shigeori Takenaka,	
	Director of RCBT	
9:45-10:00	Opening address of President of KIT:	
	Teruo Shimomura, President of KIT	Chairman
10:00-11:00	Tetsuya Haruyama, KI⊺	Yoon-Bo Shim
	Qualified analysis; novel analytical concept and sensor technology	
11:00-12:00	Yoon-Bo Shim, Pusan National University Characterization of Electrochemical Biosensors with Organic Conductive Polymers	Norikazu Nishino
	Lunch	
13:30-14:00	Takashi Yasuda, KIT	Haesik Yang
	Micro-liquid Handling for Bio-MEMS Chips	
14:00-14:30	Changill Ban, Pohang University of Science and Technology	
	Detection of mismatched DNA using MutS probes	Takashi Yasuda
14:30-15:00	Hee Chan Kim, Seoul National University Efforts on Development of New Blood Glucose Sensors	
15:00-15:20	Coffee break	
15:20-15:50	Taek Dong Chung, Seoul National University Electrochemical Sensors and Bioprobes based on Nanoporous Platinum Thin Films	Youichi Shimizu
15:50-16:20	Haesik Yang, Pusan National University	
	Au nanocatalyst-based assay	
	Poster presentation	
16:30-18:30	(Odd number: 16:30-17:30, Even number:	
	17:30-18:30)
